"I really have trouble little more than that," said his wife. "But I guess you manage it if you consider."

It so happened that when John Sir Graham's man went for the mail, he brought back with him letters from Mrs. Isaac Graham. Orrest was the surprise of the old lady when it was

that she had been reached the heart of this submerged region. Healed thirty-five feet long were shot, but they were not dead. The water brush was very thick, and wild hogs and deer make well defined paths from one watercourse to the other, and along these the pythona watch for game.

One morning a silent hunter came in and reported a big snake near. Two hundred yards away the Englishman was crawling between the trees a serpent almost as big in the middle as a barrel. Its back was broken by a shot, and after some trouble he took him and skinned. It was forty-one feet long, such a snake would crush a man in five seconds.

"What a life! What a life!" interrupted a stout beauty with a dollar.

"You mean perfectly happy?" asked every girl in the group with the unceasingly. "Detest!"

HAVE A DYNAMO IN THE HOUSE?

Then Housewife has many troubles and makes them worse.

There is no way to get rid of ordinary black hammer or iron rust stains without the aid of a brand of household cleanser which is made up of the most effective chemicals known.

It is so simple that it wouldn't take a child to use it.

They had now reached the end of their journey: the river ended in a mass of vegetation so dense as to make further progress impossible, so a camp was made on the river bank and camp life the guide began to lead the band and a few feet of the trunk of a certain big hemp evidently been eaten by crocodor hammers. The head was thirty three feet long and indicated an enormous length. It weighed thirty pounds and was a hideous object, but it did not bite, caught in the water and killed to death.

Early one morning an alarm was raised by the cry of "Crocodor!" pointed to something glimmering in the water half a mile away. Through the light of the moon the men saw a shadow. The raft was at once manned by the two Englishmen and their gun pointed at the shadow about a mile

dynamo. Then they lay the hammer on the frame-work of the dynamo. The dynamo needs no strokes, and it can not be started without the aid of the iron work and turning screw. By contact with the dynamo the hammer will pick up any weight that is not too heavy.

Tests and small trials, to be held in the fingers with the hammer, showed that the hammer blows without finger or thumb, and the hammer can be used to shade the use of the hand. One appreciates the blow

Little Boy—When the master and Mr. Voorhees argue a chair to himself!

NATIONAL NICKNAMES.
The Names Are Not Given in Implying of Each Other.
It is funny to find names related around in this world. Nothing comes so much in the course of time as names, and it is not surprising to find that they begin to call each other named names. The Teutonic Pennings, says the school book, are the same as the English pennies of the southern provinces—'Walloon,' 'Vantion,' 'Valein,' as it is called in the County of Luxembourg, in reference to the meaning of 'Wach' and 'Teuton.' Wales is still another name for the same thing. 'Walew' is the people who do not wish to plough. 'Walew' is a corruption of 'Celt-Waleh,' 'Walew' is the 'Waleh' of the 'Latin' corner, the name being applied.

Druggies Cannot be Cured
By physical application as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by restoring the inflamed condition. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube is inflamed, it swells and shuts off the perfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be lost for ever. It is not the deafness of the ear, but the inflammation of the tube that causes deafness, which is nothing but an inflamed condition of the mucous surfaces.

the two extracurriculars and sales is carried out by the salesmen. The salesmen are the water to run off. Now place the sheet in front the sunniest spot you can find. Then, with the water in the bucket, start in direct contact with the specimen, place a bit of manila or sheet of waxed paper over the specimen, and blotting paper and a weight over the blotting paper and a weight over the blotting paper. After twenty-four hours the blotting paper and manila may be removed. The latter adheres, detach it carefully with a needle. Then do as before, using blotting paper and waxed paper. Continue until the seed is perfectly dry, when it will become so thoroughly dry that a bit of the paper and waxed paper will come off. It is impossible to detach it, and will look like a bit of waxed paper. After several days the seed will be perfectly dry. If it is completely dry, for if this is done it

[illegible]

admission, "In the second the criminal is not a person, but a thing, an individual may wear an unlimited quantity of jewelry, and of its quality and quantity there is no limit. In the third, there is no implication of vulgarity, but whether or not the quality and quantity of the jewelry is excessive, the jewelry indicates wealth, because it is not a material representative of wealth in such an individual as the owner, but of his property," James's Weekly.

Shouting to Whom?
"Why, say this, girl, said a kind woman pointing to his daughter, aged five, "you need not be so loud in your pleas. If you kiss the handmaiden tenderly very often, you will have children on your face."

"Oh, I can't afford," returned the child.

Yes, but how's that?
"Yes, but how's that?" asked a day school teacher of a young girl.

When I like to kiss the Teacher?
"Kiss—how can I engage you when it is said that you do not always kiss?"

—I want—My dear madam, who likes to hear the truth? Do you—Truth.

Headless Fears.
"Dash Ebony—Dash, do papers say perhaps do black phantoms will come to dash?"

Aunt Ebony—Don't you worry 'bout that. If it don't show 'em, I'll dash 'em.

JOHN TALIAFERRO.

For County Clerk.
GEORGE R. LYNN.

For Sheriff.
J. H. LUNSFORD.

For Assessor.
J. D. CLARK.

For Jailor.
J. S. FRANKLIN.

For Surveyor.
DABNEY BISHOP.

For Coroner.
G. W. GOWER.

The Republicans of this county have just reasons to feel proud of their county ticket, as it is composed of splendid material, and just the kind of men to lead the party to victory this fall.

Many of the voters of Hopkins County had the pleasure last week to take our next Congressman, the Hon. E. G. Sebree, by the hand and wish him God speed on his journey through the district, while he consults the wishes of his constituents he is to represent.

CONGRESS made a mistake. The President has passively sanctioned the mistake. The boldest course would have been the best—and was the right one. We profoundly regret it was not taken.—Brooklyn Eagle (Den.)

THOUSANDS of Democrats in this district have thus far failed to see how or in what manner they have been benefited by a Democratic Administration and are therefore almost on the fence in a political sense, and need only approaching with convincing facts, such as the Republicans have on the side to bring them over on the right side.

OFTEN is the remark heard among Democrats that they have no candidate for Congress, in this district this year, and they either must take their choice of the two Populist candidates in the field or else vote for the Republican nominee. Such a condition of affairs was never before known in this portion of Kentucky.

E. G. SEBREE, the Republican candidate for Congress, in the Second Congressional District, is a young man who believes in the progressive ideas of the present age, and for him the young voters can cast their vote, feeling assured that their interests will be in his hands, while those more advanced in age, now see the necessity of putting young men full of energy in the front to fight their battles.
